PROJECT DETAILS:

- **NEWS APPLICATION** : News Application named ‘DailyNews’ project includes News letters & links consisting of daily news updates in various genres like Sports, Entertainment, Politics etc. DailyNews is developed for viewing thumbnails, titles and short descriptions, regarding information about various news which can be accessed through links provided in every news card. This application is built using ReactJS library which fetches the information using API(Application Programming Interface) and is displayed on User Interface.
- **PROFILE GEOMAPPING** : Profile geomapping is an interactive and user-friendly web application built using ReactJS library which allows you to create profile of individuals with the information about their identity, description of their work, lifestyles and their residence. Furthermore, utilizing modern technology, this individual person's address can be seamlessly located on Google Maps, offering a convenient means of navigation for those seeking to connect with him or explore his neighborhood. Individuals can effortlessly and precisely pinpoint the person's location on the Map.
